

## Lyneham Primary School

### Preschool to Year 6 World of Maths

Dear Parents/Carers

How do scientists make change?

Will you be a gamechanger?

How can we all contribute to a shared future?

What could you see through a telescope looking out into the milky way or peering down a microscope?

As a part of our STEM festival all students in years 3 to 6 are invited to attend a World of Maths activity incursion at school.

This program will highlight engaging and eyepopping science and mathematics and how we use them to build and find out amazing things.

The incursion will be held at school during the week 4 STEM festival. This additional incursion to our STEM festival is voluntary and if you do not wish your child to attend, alternative supervised options are available.

The total cost is \$5.00. Please read and return the following if you wish your child to attend.

Charlotte Stevens & Elise Sutherland
